Action Taken Report-2017-18

S.No.	Issues	Action taken
1	Alumni suggested that some certificate courses or subject should be introduced and more stress on workshops on social sector/CSR should be organized.	Students at SCMS, Noida are free to take any subject of their choice to gain extra knowledge and exposure by opting it as eighth subject. Various workshops have been organized and continuously keep on organizing on various contemporary subjects by collaborating with reputed organization like KPMG which organized workshop on Six Sigma Greenbelt and many more workshops are aligned on the similar lines in the future.
2	Parents suggested subjects focusing more on Business Communication and some foreign languages to be taught to the students.	We already offer Business Communication as a subject in semester-1 to improvise communication skills of the students. We offer two foreign languages i.e. French and German as a part of our programme structure. The workshops in area of Business Communication have been proposed in future that would help in value addition to the students in their career. Overall, parents are satisfied with the curriculum offered at SCMS, Noida.
3	Students wanted to have more specializations especially International Business along with existing specializations i.e. Human Resource Management, Finance and Marketing.	We are offering two more specializations i.e. International Business and Business Analytics along with Human Resource Management, Finance and Marketing. For the current batch of 2017-20 new specialization International Business along with Human Resource Management, Finance and Marketing is offered. Business Analytics specialization would be offered from the batch of 2018-21 onwards.
4	Employer/Industry Experts suggests sending students for summer schools and internships outside India for better learning and exposure. They also recommended starting some courses on Data Analytics looking at the market demand and job prospects for the	Our students have visited many reputed universities outside India like London School of Economics, Dauphine University, Harvard University, Stanford University and many more for summer school and students exchange programmes. We are in talks with many other universities across the world for tie-ups and collaborations to facilitate our students and give them better exposure. We have already

	students.	proposed new specialization Business Analytics on the basis of the feedback from the industry experts and market demand .We keep on organizing workshops and seminars on various contemporary issues from time to time.
5	Faculties being part of PRC and various BOS sub committees keep reviewing the subjects in their respective domain and gave suggestions to incorporate the same. This is a regular exercise and faculty for same subject area put their brains together to improvise the curriculum.	Our faculties keep on updating themselves and incorporate their learning's in their courses and suggest the changes, if required in the respective academic committees at institute level and subcommittees meetings at the university level.
