### Action Taken Report-2018-19

S.No.	Issues	Action taken
1	Alumni suggested that some certificate courses or subject should be introduced and more stress on workshops on data analytics should be organized.	Students at SCMS, Noida are free to take any subject of their choice to gain extra knowledge and exposure by opting it as eighth subject. Various workshops have been organized and continuously keep on organizing on various contemporary subjects like business analytics and other allied areas by collaborating with reputed organization like KPMG, ICICI, E&Y to name a few. Many more workshops are aligned on the similar lines in future and have become a regular aspect of our curriculum.
2	Parents suggested more corporate internships industry visits and live projects for the students. They also suggested to have some course on business ethics	We already offer internships and live projects which are very much part of the programme structure and assignments given to the students from time to time. We are already organizing guests'-lectures, panel discussions and workshops to give better exposure to our students. We are planning for industrial visits from the upcoming session. For upcoming session course or certification on business ethics has been proposed to the program review committee for appropriate action They are overall satisfied with the curriculum offered at SCMS, Noida.
3	Students wanted to have more certifications in field of analytics and excel.	We have organized seven days' workshop on Business Analytics, Emotional Intelligence, Equity Markets etc. for the students and many more are lined in upcoming session.
	Employer/Industry Experts suggests for more practical exposure courses on Microsoft excel in lieu of the market demand and job prospects for students.	The recommendations to conduct a workshop on Microsoft excel has been given to facilitate our students and give them a better exposure. We have increased the frequency of workshops and guest lectures keeping in mind the demand of

industry and feedback from the industry experts. We keep on organizing workshops from time to time on related subjects.

Faculties being part of PRC and various BOS sub committees keep reviewing the subjects in their respective domain and gave suggestions to incorporate the same. This is a regular exercise and faculty for same subject area put their brains together to improvise the curriculum.

Our faculties keep on updating themselves and incorporate their learning's in their courses and suggest the changes, if required in the respective academic committees at institute level and subcommittees meetings at the university level.
